

Child Support Modification

Paralegal checklist for the quarterly batch

Working checklist for North Carolina child support modification filings, used for the quarterly batch. No live client detail is recorded here.

Purpose

This checklist keeps the quarterly batch of child support modifications consistent and on time. The current batch is due October 15, 2026, with final document quality control complete by the Tuesday close and a second read pass run on the Wednesday afternoon before filing.

Intake

- Confirm the existing order and its effective date.
- Document the substantial change in circumstances.
- Collect updated income and expense affidavits from both parties.
- Verify current health insurance and childcare costs.

Filing

Step	Action
1	Recalculate support under the North Carolina guidelines worksheet
2	Prepare the motion and the proposed order
3	Calendar the hearing and the service deadline
4	Add the matter to the quarterly batch tracker due October 15
5	Run the second read pass before anything leaves the office

Common change triggers

- A significant change in either party's income or employment.
- A change in the custody schedule or the number of overnights.
- A shift in health insurance or childcare costs.
- A relocation that changes the parenting arrangement.

Documents to collect

Document	Source	Status
Existing support order	File or court record	Confirm

Income and expense affidavits	Both parties	Collect
Proof of health insurance cost	Employer or carrier	Verify
Childcare cost records	Provider statements	Verify

Quality control

Stage	Owner	Timing
Final document review	Senior paralegal	Tuesday close
Second read pass	Junior paralegal	Wednesday afternoon
Batch filing	Senior paralegal	Thursday, October 15, 2026

After filing

Once the batch is filed, the work is not quite done. Service has to be confirmed for each matter, the hearing dates land on the shared calendar, and the file is squared away so the next quarter starts clean. A short close out note records what filed and when.

- Confirm service for every matter in the batch and file each certificate.
- Calendar the hearing dates and any response deadlines.
- Archive the filed versions and update the batch tracker to closed.
- Note anything that slowed the batch so the next one runs smoother.

Nothing leaves the office without a confirmed service plan and a completed second read.
