

Annual Physical Examination Report

Patient: Stephanie Wells | Date of Exam: October 15, 2026

Patient	Stephanie Wells
Date of birth	February 12, 1998
Account number	EMG-29847
Exam date	October 15, 2026
Physician	Dr. Rachel Fernandez, MD
Practice	Embarcadero Medical Group
Address	1 Embarcadero Center Suite 400, San Francisco CA 94111
Phone	(415) 555-0323
Insurance	Anthem Blue Cross PPO (Vantage Loop plan)

1. Vital Signs

Measurement	Value	Reference Range	Flag
Blood pressure	118/74	under 120/80	Normal
Heart rate	58 bpm	60 to 100 bpm	Low-normal (athletic)
Respiratory rate	14/min	12 to 20/min	Normal
Temperature	98.4 F	97.8 to 99.1 F	Normal
Weight	137 lb	BMI 22.4	Normal
Height	5 ft 7 in		
SpO2	99%	95% or higher	Normal

2. Lab Results

Test	Result	Reference Range	Flag
Total cholesterol	172 mg/dL	under 200	Normal
HDL cholesterol	68 mg/dL	40 or higher	Normal
LDL cholesterol	88 mg/dL	under 100	Normal
Triglycerides	82 mg/dL	under 150	Normal
Fasting glucose	89 mg/dL	70 to 99	Normal
HbA1c	5.1%	under 5.7%	Normal
TSH	2.1 mIU/L	0.4 to 4.0	Normal
Hemoglobin	13.4 g/dL	12.0 to 16.0	Normal
Ferritin	18 ng/mL	12 to 150	Low-normal (monitor)
Vitamin D	38 ng/mL	30 to 100	Normal
Vitamin B12	412 pg/mL	200 to 900	Normal

3. Physician Notes

Ms. Wells presents in excellent overall health. Cardiovascular markers are favorable, consistent with her regular aerobic and strength training schedule (competitive bouldering, four sessions per week; trail running three to four miles on alternating mornings). Resting heart rate of 58 bpm is expected for an athlete at her level of conditioning. Lab work is unremarkable with one note: ferritin is at the low end of normal (18 ng/mL). Given her vegetarian diet and high training volume, I recommend adding a daily iron supplement (ferrous sulfate 65 mg or equivalent) and repeating ferritin at the next annual exam. No dietary restrictions are medically required; the vegetarian diet is nutritionally adequate based on the full panel.

ADHD management: lisdexamfetamine 40mg daily remains appropriate. No concerns raised; patient reports the medication is effective and routine-dependent. Prescription renewed for 12 months. the pharmacy on Market Street account confirmed.

Musculoskeletal: Chronic left-shoulder impingement is well-managed with physical therapy (Dr. Amy Chen, Bayside Sports Medicine). Recommend continuing the current PT protocol through the competition season. If symptoms worsen, an MRI referral will be ordered. Right ankle (2024 sprain) is fully healed with no residual deficit.

Mental health: Patient is engaged in biweekly telehealth therapy with Dr. Lisa Park and reports the work to be helpful. Managing concurrent high-load life domains (product launch, wedding, parental caretaking) is noted. No concerns requiring clinical escalation.

Preventive screenings: Pap smear completed today, results pending (2 to 3 weeks). No other age-specific screenings indicated at this time. Next annual exam recommended for October 2027.

4. Prescriptions and Orders

Medication	Dosage	Frequency	Status	Pharmacy
lisdexamfetamine	40 mg	Once daily AM	Renewed	the pharmacy on Market St
cetirizine (cetirizine)	10 mg	PRN (spring)	OTC	As needed
Ferrous sulfate (new)	65 mg	Once daily	New Rx	the pharmacy on Market St

5. Preventive Recommendations

- Continue current exercise regimen. No modifications required.
- Add ferrous sulfate 65 mg daily with vitamin C to enhance absorption.
- Maintain vegetarian diet with attention to iron-rich foods: lentils, tofu, fortified cereals, dark leafy greens.
- Continue biweekly therapy with Dr. Lisa Park.
- Continue PT protocol with Dr. Amy Chen; reassess shoulder at 6-month mark.
- Dental exam: schedule with Dr. Kevin Lau if not done in 2026.
- Pap smear results: expect a call from EMG within 3 weeks. Call (415) 555-0323 if no contact received.
- Next annual physical: October 2027.

6. Patient Acknowledgment

I have reviewed this report with Dr. Rachel Fernandez and understand the recommendations above. Questions about this report can be directed to Embarcadero Medical Group at (415) 555-0323 during business hours, or via the patient portal at emg.health/portal.
