

Northstar Analytics Dashboard

Q4 2026 Roadmap and GA Launch Update | Pilot Customer Session

What We Built Together

Beta program overview: a nine-month beta with three enterprise pilot accounts; four feedback cycles, with every shipped feature tracing to pilot input; NPS 9.3 average at GA launch. The goal: self-serve analytics for enterprise teams in under 10 minutes, eliminating the two-to-three-day support ticket wait for data questions. See workbook X07 for the full feedback archive.

Features Shipped: In-Scope for GA

Feature	Description	Status	Your Request
NS-F001	Export to CSV	Shipped	ENT-PC-001, ENT-PC-002
NS-F002	Custom date range filter	Shipped	ENT-PC-003
NS-F005	User-level drill-down	Shipped	ENT-PC-002
NS-F003	Shared dashboard links	Shipped	ENT-PC-001
NS-F006	Funnel visualization	Shipped	All pilots
NS-F004	Email digest reports	Shipped	ENT-PC-001
NS-F010	Messaging Alert Integration	Shipped	ENT-PC-002
NS-F007	Cohort comparison table	Shipped	ENT-PC-003

Performance at Launch

Metric	Target	Result	Source
30-day pilot retention	40% or higher	41.2%	the analytics platform
Dashboard load P95	under 2 sec	1.8 sec	the monitoring platform
CSV export 100k rows P95	under 90 sec	72 sec	the monitoring platform
Post-launch P0 bugs (14 days)	0	0	the error-tracking tool
Pilot NPS	8.0 or higher	9.3	the survey tool

Post-Launch Roadmap: Q1 and Q2 2027

Q1 2027: NS-F009 Benchmark overlay (compare your metrics against an anonymized peer cohort); NS-F011 Enterprise API access (programmatic data access for your data team); NS-F008 Annotation layer (add context directly on charts). Q2 2027: NS-F012 White-label branding (interest from Atlas Growth Labs); mobile-responsive layout improvements. See X12.xlsx for full RICE scores and priority order.

What Comes Next for Your Account

Meridian Capital Partners (ENT-PC-001): API access beta invitation in Q1 2027; dedicated onboarding session for your analytics team in November 2026. Thornfield Systems (ENT-PC-002): multi-workspace feature on the roadmap for evaluation; your Safari memory leak fix shipped in Sprint 14, verified November 8. Atlas Growth Labs (ENT-PC-003): white-label branding timeline confirmed for H1 2027; you scored us 10 NPS, and we are holding onto that.

Thank You

Your pilot participation shaped every feature in this product. Northstar is better because you told us what actually mattered rather than what sounded good in a product brief. PM: Stephanie Wells, stephanie.wells@Finthesiss.ai. Eng Lead: Megan Shaw, megan.shaw@gmail.com. Next business review: Q1 2027. See P01.pdf (PRD) and

P09.pdf (launch readiness) for full documentation.
