Kaiser Member ID	KP-HI-208834
Referral	Dr. Patricia Hanover, MD (Aloha Wellness Clinic)
Insurance	Kaiser Permanente Hawaii

Visit Record: August 14, 2025

Provider Dr. Jason Yee, MD, FAAD

Visit Type Biannual skin check

Patient presents for routine skin examination. Significant outdoor UV exposure as professional research diver.

Examination: Full-body skin survey completed. Scattered actinic keratoses noted on dorsal forearms and upper chest. Two lesions on right dorsal forearm flagged for monitoring.

Assessment: Mild to moderate actinic damage; no dysplastic or malignant changes. Recommended SPF 50+ daily; reef-safe formulation preferred.

Plan: Return in 6 months for follow-up. Patient instructed to call sooner if lesions change.

Next scheduled visit February 2026 (6-month follow-up)

Visit Record: December 18, 2025

Provider Dr. Jason Yee, MD, FAAD

Visit Type Follow-up / Cryotherapy

Patient presents for 6-month follow-up per August 2025 plan. Right forearm lesions reviewed.

Examination: Two actinic keratoses on right dorsal forearm - one has enlarged slightly. Remainder of survey unremarkable.

Treatment: Cryotherapy (liquid nitrogen) applied to two right forearm lesions. Patient tolerated well. Blistering expected within 24-48 hours; healing within 7-10 days.

Instructions: Avoid aggressive sun exposure during healing. Continue SPF 50+ daily.

Follow-up: November 2026 per biannual monitoring schedule.

Records maintained per HIPAA Privacy Rule. Patient consent on file.
