Work Performed This Period

The month's work included routine building maintenance, two minor plumbing repairs, and the replacement of two failed light fixtures in the sanctuary hallway. Gary also set up and tore down the fellowship hall for a funeral luncheon and a Sunday school program, and cleared snow from the main and side entrances after each storm.

The schedule is steady and predictable, which suits both the church and Gary. The work is mornings, finished by midday, and leaves the afternoons free for coffee with Dale, errands, and the garden when the season allows.

Maintenance requests are logged by Barb Kleinsasser, church secretary. No items were left outstanding at the close of the period.
