

# Brisket Cook Timeline: Oklahoma Joe's Offset Smoker

For the Sunday BBQ and the July 4 neighborhood cook. Competition partner: Eddie.

## Timeline (whole packer, about 13 lb)

| Clock    | Step                                                        | Target          |
|----------|-------------------------------------------------------------|-----------------|
| 4:30 AM  | Light the offset firebox, post oak; trim and season brisket | Pit at 250F     |
| 5:00 AM  | Brisket on, fat side up; water pan filled                   | steady smoke    |
| 9:00 AM  | First spritz; maintain clean blue smoke                     | Bark setting    |
| 12:00 PM | Wrap in butcher paper at the stall                          | Internal 165F   |
| 3:00 PM  | Probe for tenderness in the flat                            | Internal 203F   |
| 3:30 PM  | Rest in a dry cooler, wrapped                               | Hold 1 to 2 hrs |
| 5:00 PM  | Slice against the grain; serve                              | plate up        |

## Notes

Keep the fire small and clean. Sauce on the side; the recipe stays in the family.
