

Dorothy Campbell, Care and Medication Plan

Daily routine and medication schedule for the downstairs suite.

Resident	Dorothy Campbell, downstairs suite
Prepared date	January 20, 2026
Nephrology follow up	Dr. Priya Nair
Blood pressure target	under 140 over 90

Medication schedule

Medication	Dose	Schedule	Purpose
Amlodipine	10 mg	Once daily	Blood pressure
Losartan	50 mg	Once daily	Blood pressure and renal protection
Alendronate	70 mg	Once weekly, Sunday, empty stomach	Osteoporosis

Daily routine

- Morning and evening blood pressure readings, logged at home.
- Review the log each evening and flag any reading above 140 over 90.
- Neighborhood walk at 9:00 AM with Mrs. Henderson.
- Lactose free options at shared meals.

Monitoring targets

Measure	Target	Action if out of range
Systolic pressure	under 140	Flag to Karen, recheck in the evening
Diastolic pressure	under 90	Flag to Karen, recheck in the evening
Weekly medication	no missed doses	Note in the household log

Coordination

Coordinate any medication or dose change with Karen first. Keep refills ahead of hurricane season and maintain a multi-day supply of all maintenance medications.
