WHO WE ARE

Kim Trade Services is a Columbus, Ohio-based trade compliance and consulting firm founded in 2008 by Jason Robert Kim, a licensed US Customs Broker and Certified Trade Specialist with over twenty-five years of experience in the domestic and international trade industry. We serve thirty to forty active clients, primarily mid-size manufacturers and agricultural exporters in Ohio and the surrounding region. Our team of six trade professionals brings practical, hands-on compliance expertise to every engagement. We are not a high-volume broker pushing paper. We are a focused compliance practice that works through the details with you.

CORE SERVICES

Service	Description
USMCA Compliance and Origin Certification	Rule-of-origin analysis, Certificate of Origin preparation and blanket filing, recordkeeping guidance
Tariff Classification (HTS)	Classification of imported and exported goods under the Harmonized Tariff Schedule of the United States
Duty Drawback Claims	Manufacturing drawback under 19 U.S.C. Section 1313(b), substitution drawback, and same-concomitant
Importer Security Filing (ISF 10+2)	Preparation and timely submission of Importer Security Filings. Monitoring of filing status and re
Trade Compliance Audits	Internal audit of import and export records against CBP regulations, USMCA requirements, and a
Trade Facilitation Advisory	Strategic guidance on tariff mitigation, first sale valuation, foreign trade zones, bonded warehouse

CREDENTIALS AND PROFESSIONAL AFFILIATIONS

Credential / Affiliation	Detail

Columbus Trade Mentorship Program	Co-founder and active mentor; annual cohort since 2019
National Customs Brokers and Forwarders Assoc	Active Member
Trade Support Network	CBP-recognized trade support partner

INDUSTRY VERTICALS

Kim Trade Services has concentrated experience in three primary industry verticals: (1) Automotive parts and sub-assemblies, with particular depth in USMCA rule-of-origin for Tier 1 and Tier 2

automotive suppliers operating across the US-Mexico-Canada supply chain; (2) Agricultural exports, including processed grain products, seed exports, soybean and corn derivatives, and poultry, with documentation expertise spanning USDA, FSIS, APHIS, and bilateral phytosanitary requirements; (3) Industrial manufacturing, covering steel, plastics, chemicals, and consumer goods with multi-country supply chains. We also serve clients in textiles, food processing, and logistics.

WHAT WE DO NOT DO

We do not compete with freight forwarders or customs house brokers on high-volume commodity entry work. We do not take on clients whose primary need is the lowest cost per entry rather than the highest accuracy per entry. We do not render trade policy opinions that belong to licensed attorneys or claim jurisdiction over areas of trade law that require legal representation. What we do is compliance work done right the first time, by people who have done it for twenty-five years.

CLIENT ENGAGEMENT MODEL

New client engagements begin with a one-hour consultation at no charge to assess fit and scope. Most ongoing engagements are structured as monthly retainers covering defined scope, with project work billed separately on a fixed-fee or hourly basis. Standard retainer packages start at \$1,200 per month. Engagement terms and pricing are set out in a written service agreement. All pricing is transparent and agreed in advance. See p1.pdf for an example of a standard service agreement structure.

SELECTED CASE STUDIES

Kim Trade Services Capabilities Statement / 820 Commerce Park Drive, Suite 204, Columbus, OH 43215

USMCA Compliance Program Implementation - Automotive Parts Manufacturer

Client Profile: Mid-size automotive sensor manufacturer; 12 production lines; US-Canada-Mexico supply chain

Challenge: Client had no formal USMCA compliance program after NAFTA replacement. At risk of duty exposure on \$3.2M annual imports.

Solution: KTS conducted full SKU-level HTS classification review (847 part numbers), built supplier attestation program, established blanket CO procedures, and trained client compliance staff over 6 months.

Outcome: Full USMCA compliance achieved within 8 months. \$0 duty exposure post-implementation. Client now independently maintains program with quarterly KTS review.

Duty Drawback Recovery - Agricultural Exporter

Client Profile: Ohio-based grain and oilseed exporter; \$18M annual export volume to Canada, Mexico, and Europe

Challenge: Client had never filed duty drawback claims despite 7 years of qualifying import/export activity. Estimated \$85,000 in unclaimed drawback over lookback period.

Solution: KTS performed 5-year lookback analysis, reconstructed import/export records, and filed manufacturing substitution drawback claims across 14 import entries.

Outcome: \$62,400 in duty drawback recovered over 18 months. Ongoing claim program established with annual filing cycle. Clients referred to x4.xlsx roster include two similar agricultural clients now on retainer.
