Ways to pay and important information

Automatic payments. Your loan is enrolled in automatic monthly withdrawal on the first of each month. No action is needed to make the payment shown.

Extra principal. To pay down the balance faster, you may include an additional principal amount with any payment. Note the extra amount in the memo or the online payment portal so it is applied to principal rather than the next payment.

Late charges. A late charge applies if a payment is received after the fifteenth of the month in which it is due. Automatic payments are never late.

Property tax and insurance. You do not need to pay your property taxes or insurance premium separately. These are paid from your escrow account when due.
