

FIRST LEGO League, South Sound Regional

November 7, 2026, Tacoma Community College Gymnasium

Hosted by the South Sound robotics volunteers

Team Information

Team	Gear Grinders, Evergreen Elementary
Team member	Ethan Long
Coach check in	7:30 AM
Pit table	14
Division	Explore and Challenge, elementary
Season theme	Community and accessibility

Event schedule

Time	Activity	Location
7:30	Team check in and pit setup	Main gym
8:30	Opening ceremony	Main gym
9:00	Robot game, round 1	Field A
10:15	Project presentation judging	Room 120
11:30	Robot game, round 2	Field A
1:00	Robot game, round 3	Field B
2:30	Alliance rounds	Field A
3:30	Awards ceremony	Main gym

Judging and scoring

Teams are evaluated across the robot game and a project presentation. Judges also consider teamwork and the core values that guide the program. Scores from multiple rounds and rubrics combine into the awards decisions.

Area	What judges look for	Weight
Robot game	Best single round of three counts	High
Project	Problem, research, and shared solution	High
Robot design	Build, programming, and strategy	Medium
Core values	Teamwork, discovery, inclusion	Medium

Project presentation

Each team has five minutes to present, followed by judge questions. Teams should arrive at Room 120 ten minutes before their slot with the poster and any props ready to set up quickly.

Robot game

Each match runs two and a half minutes. Teams get three rounds and the best score counts. Robots must pass a quick inspection at the pit table before the first match.

Team checklist and logistics

Coach and family checklist

Robot fully charged, plus a spare set of batteries.

Project poster and presentation notes, printed and ready to mount.

Team sign, buttons, and any spirit items for the pit.

Water and snacks, the day runs from check in to the afternoon awards.

Laptop and cables for last minute programming at the pit table.

Copies of the engineering notebook for the judges.

For families and spectators

Spectators are welcome in the main gym and around the fields.

Please keep aisles clear and stay behind the pit boundary lines.

Photography is fine, no flash near the competition fields.

Concessions are available in the lobby through the lunch break.

Teams should arrive with robots fully charged and the project poster ready to mount. Good luck to the Gear Grinders.
