Thank you for supporting a small independent tool shop.

Warranty and Return Policy

Every hand tool we sell is covered against defects in materials and workmanship for the life of the tool. This covers casting flaws, blade defects, and hardware failure under normal woodworking use. It does not cover normal wear, rust from improper storage, or damage from misuse or modification.

Edge tools are sharpened and tested before they ship. A blade may need a light honing on arrival to suit your own work, which is normal and not a defect. If a tool arrives damaged in transit, contact us within fourteen days with the order number and we will arrange a replacement.

Unused tools in original condition may be returned within thirty days for a refund of the purchase price, less return shipping. Sharpened or used edge tools cannot be returned unless defective. Keep this invoice as proof of purchase for any warranty claim.

Care notes

Wipe metal surfaces with a light oil after use, store planes on their side or with the blade retracted, and keep scrapers in a dry drawer. A well kept tool outlasts the woodworker.
