

Gettysburg Trip Itinerary

Juan Hernandez and Emma - Saturday October 24 to Sunday October 25, 2026

Overview

An overnight history trip with Emma to the Gettysburg battlefield. Roughly two and a half hours of driving each way from Annapolis. The plan keeps the pace easy with one battlefield tour, a quiet dinner, and a museum visit the next morning before the drive home. Emma is reading the battlefield chapters in advance so we can talk them through on the tour.

Packing and health notes

- Pack the rescue inhaler in the front pocket of the bag and take the evening allopurinol on Saturday.
- Carry water for both days. Dehydration is the usual trigger for a gout flare, so keep drinking.
- Keep walking segments short and flat where possible. Choose benches and overlooks for the rest stops.
- Layers and a light rain jacket. October can turn cool on the open field.
- Fuel the car on Friday afternoon and check tire pressure before the drive.

Reading pact

Emma chose the trip from our trade of book recommendations. She is reading the chapters on the second day of the battle before we go. On the tour we will look for the ground those chapters describe, and on Sunday she picks the next title at the bookshop. The point is the conversation as much as the history.
