Donor Margaret Farmer, Higashiyama, Kyoto
Fund Saito Young Potters Fund, arts education for young ceramic makers
Founded by Toshio Saito, on his retirement from active production

This gift

Item	JPY
Annual donation 2026	30,000
Share of autumn 2025 workshop fees	12,000
Total received	42,000

Thank you Margaret. Your gift helps a young maker buy clay and firing time in the year they can least afford it, the same year someone once helped you. The fund supported four apprentices this year. Toshio asked me to pass on that he saw the tea bowls you sent and that they are getting closer. He will not say better than that, you know him.

This is a personal gift, treated as overhead, not a business expense. Receipt kept for the giving records only. Margaret gives to this fund, a small Kyoto cultural preservation group, and a young-potter cause each year.
