Deductible portion of home, phone, transport	372,000
Depreciation, equipment	64,000
Other deductible costs	186,000
Net business income	2,820,000
Blue return special deduction	650,000
Income after deduction	2,170,000

Payments and notes

Quarterly estimated payments were made on schedule. A small balance is due with the final return, payable by 15 March 2026. The figures match the studio ledger you supplied. Keep the receipts for the anagama wood and the clay deliveries, those are the largest material lines and the ones most likely to be queried.

Reminder for 2026: the museum commission fee of JPY 720,000 is business income for this year. The first payment lands in 2026, so it falls into next year's return, not this one. Set aside roughly a quarter of it for tax.
