Margaret, bonjour.

The October show is confirmed for opening Saturday 17 October. Five potters, you among them, on the theme Earth and Hand. I would love eight pieces from you, your wood ash work, the vases especially. The big tall one from the photographs you sent last autumn, if it survives the next firing.

Could you send a selection list with sizes and insured values so I can plan the wall and the crates? And tell me your shipping plan. Warm regards, Jean-Luc.

Jean-Luc, thank you, I am glad to be in it again.

Eight pieces works. I will send the selection list today as a separate file. Two tall vases, four tea bowls, a serving bowl, a jug, a platter, a small jar. Most of them depend on the May wood firing coming out well, so the list is what I intend, not what I can promise until late May. I will confirm the final eight by the start of June.

On shipping, I use Sagawa Art Logistics in Kyoto for the export crating, they have done my work to Europe before and they pack ceramics properly. I would ship by the 2nd of October at the latest so the work clears customs and reaches you with room to spare before the 17th. Insurance at the values on my list, we split the cost per our usual arrangement.

One thing I want to be straight about, the timing is tight at my end. The Shibui solo opens here on the 10th, so the first half of October is heavy. If anything slips it will be the Paris crate going a few days earlier, not later. Margaret.

Understood and agreed. Ship early, never late. Sagawa is fine, we have received their crates before.

Send the list whenever ready. I will hold the two tall vases the centre of your wall, so if the firing gives you only one strong tall piece, tell me and I will rework the hang. No pressure beyond the firing, which is pressure enough, I know.

Will you come for the opening? I hope so. There is a small dinner the night before for the five artists. Jean-Luc.

Yes, I will come. I will fly in for the opening and the dinner, then a few quiet days before I go home. It has been too long since I was in Paris with time to look at anything.

Selection list attached in the other mail. Speak in June once the kiln has spoken first. Margaret.
