MRN	MM-209318	Visit Type	Annual Physical

Vitals

Measure	Result	Measure	Result
Blood Pressure	128/82 mmHg	Weight	214 lb
Heart Rate	68 bpm	Height	6 ft 0 in
BMI	29.0	Temperature	98.4 F

Lab Results, Lipid Panel

Test	Result	Reference Range	Flag
Total Cholesterol	215 mg/dL	Under 200	High
LDL	138 mg/dL	Under 130	High
HDL	45 mg/dL	Over 40	Normal
Triglycerides	160 mg/dL	Under 150	High

Assessment and Plan

Borderline high cholesterol, stable on atorvastatin 20 mg daily. Continue current dose. Reduce red meat and fried foods. Mild acid reflux managed with omeprazole as needed.

Right knee remains stable two years after meniscus repair. Continue the two mile walks three times weekly and the brace for coaching. No new imaging needed.

Next annual physical: March 2027. Repeat lipid panel before that visit. Call the office with any questions.

Signed electronically by Dr. William Tate, Meridian Medical Associates.
