

Retiree Health Co-Pay Campaign - Organizing Brief

The Issue

The plan administrator has proposed increases to retiree health-insurance co-pays. For members on fixed pensions, even a modest monthly increase compounds into real hardship across a year.

The Ask

Hold the current co-pay structure for retirees who served their full vesting period. Phase any change with advance notice and a hardship exemption for the oldest members.

The Tactic

A coordinated letter-writing campaign from Local 1437 retirees to the plan administrator and area representatives. Personal letters that name a member's years of service carry the most weight.

How to Help

Bring a letter to the second-Wednesday board meeting, or drop one at the union hall office. The board will collect and deliver them as a single packet with a cover memo.
