

USW Local 1437 - Retiree Advisory Board Overview

Mission

The Retiree Advisory Board represents members who served at Allegheny River Steel Works and other shops across the valley. The board advocates on pensions, health coverage, and the dignity of the men and women who built this region.

Meeting Cadence

The board meets on the second Wednesday of each month at the union hall at five in the evening. Members mentor younger workers and keep the local's history alive.

Current Priorities

The standing priority this term is the campaign against proposed increases to retiree health-insurance co-pays. The board is organizing a letter-writing effort to the plan administrator and area representatives.

Getting Involved

Retirees may join any standing committee. Contact the board secretary through the union hall office to be added to the roster and the newsletter list.
