

PORTER & KOVAL PLUMBING LLC

1842 East Susquehanna Avenue, Fishtown, Philadelphia PA 19125 | (215) 555 0188 | Established 2012

Brand Guidelines, Version 2.3, October 2026

These brand guidelines define the visual and tonal identity of Porter & Koval Plumbing LLC. They apply to all customer facing materials including invoices, contracts, website pages, vehicle signage, business cards, social media graphics, and signage at customer job sites. They do not apply to internal field notes, internal job cards, or any document that is not seen by a customer or by the general public.

Primary Color Palette

Swatch	Name	Hex	Use
Navy	Porter Navy	#1c3d5a	Primary brand color, used for headers, logo background, and contract letterhead
Copper	Porter Copper	#b15a23	Secondary brand color, used as accent on calls to action and on the vehicle wrap stripe
Slate	Porter Slate	#5a6877	Body text on dark backgrounds, secondary signage text
Cream	Porter Cream	#f5efe1	Page background tint on print collateral, never on screen
White	Porter White	#ffffff	Default page background, primary body text background

Typography

Display	Inter Bold, used at 24 point and above for page titles
Heading	Inter Semibold, used at 14 to 22 point for section headings
Body	Source Sans Pro Regular, 10 to 12 point for body text
Mono	Source Code Pro Regular, used for any code or technical reference

Logo Use

The Porter & Koval wordmark is set in Inter Bold with a tight kerning of minus twenty units. The ampersand is rendered as a full ampersand character and never as the word and. The shop tagline below the wordmark reads Established 2012 in small caps Inter Regular.

Minimum clear space around the wordmark is equal to the height of the capital letter P on every side. The wordmark must never be placed on a background that reduces contrast below a four point five to one ratio with the foreground color.

The wordmark may be reproduced in full color on light backgrounds, in white on Porter Navy or any color darker than Porter Slate, and in black on any background where color reproduction is unavailable.

Voice and Tone

Porter & Koval communicates with customers in a direct, plain spoken voice. The brand voice prefers short declarative sentences and avoids marketing jargon. It does not promise outcomes that the shop cannot guarantee and it does not dramatize routine work.

When a price is communicated, the shop quotes the actual amount including tax where applicable. When a timeline is communicated, the shop quotes the actual window including any known constraints. When a warranty is communicated, the shop quotes the actual terms including exclusions.

Social media voice mirrors the same direct tone. Posts are kept short, posts include real photographs from the shop or from completed jobs where the customer has granted permission, and posts avoid emoji or sensationalized language.

Print and Signage

Vehicle signage uses Porter Navy on the body and Porter Copper for the wordmark stripe. The vehicle signage standard pattern is documented in the van signage proof referenced separately in the brand kit.

Job site yard signs use Porter Navy background with Porter Cream text. Signs are eighteen inches by twenty four inches and carry the wordmark, the license number, and the shop phone number.

Business cards use Porter White background with Porter Navy text. The business card standard pattern is documented in the business card proof referenced separately in the brand kit.

Approval and Revisions

Brand guideline changes are reviewed by Emily Porter and Kevin Koval and are versioned with a quarterly release schedule. Customer facing materials should always reference the current version on the date of production.

Vendors who produce print or sign work for Porter & Koval receive the current guideline PDF at the time of engagement and are responsible for following it.
