Quote Total	\$5,719.38

Delivery and Payment Terms

Delivery is door drop at the Porter & Koval shop at 1842 East Susquehanna Avenue Fishtown loading bay on the Bensalem to Philadelphia milk run that Oxford Plumbing Supply operates on Tuesdays and Fridays. Lead time for the copper stock is five business days from purchase order.

Payment terms are net thirty from delivery on standing trade account. Volume discount is automatically applied for combined orders over five thousand dollars in a single drop. Oxford Plumbing Supply offers an additional one percent prompt pay discount for invoices settled within ten days of delivery.

Returns on unopened factory packaging are accepted within thirty days subject to a fifteen percent restocking fee. Returns on opened or cut goods are not accepted. Special order items are non returnable.

Notes from Inside Sales

Bret notes that the 1.25 inch type L copper stock has been on extended lead time at the mill and that any further demand should be flagged early. Oxford Plumbing Supply maintains a small buffer in Bensalem but the buffer is rebuilt only on the monthly mill drop.

Lead free solder supply is steady through Q4 2026. The flux paste manufacturer recently revised the formulation; the new product is fully compatible with the existing solder line and carries the same shelf life.

Oxford Plumbing Supply is rolling out an online ordering portal in early 2027. Porter & Koval has been invited to the beta and a separate communication will follow with the access details.
