Pearl Street rowhouse refund INV-2026-09-1147 decision memo

Reconciliation of four conflicting refund figures, recommended commit at \$315.00 via Square.

Author. Emily Porter, Porter & Koval Plumbing LLC owner.

Date. October 24 2026, drafted before the Kensington Community Garden volunteer workday at the East Allegheny Avenue site.

Subject. Sterling Property Management Pearl Street rowhouse boiler relief refund on invoice INV-2026-09-1147 has surfaced four conflicting figures across four systems. This memo enumerates each one, performs the arithmetic that disqualifies the stripe duplicate charge decoy, and recommends the commit value.

Conflict matrix

Source	Figure	Status	Notes
Square payment PAY_STERLING_REFUND_PEARL	\$315.00	AUTHORITATIVE	Reader on LOC_FISHTOWN, receipt RCP_INV_2026_09_1147, posted 2026-10-22T14:35:00Z per Maria Thornton review.
Outlook AAMkAGmsg0000029 Maria Thornton	\$298.00	STALE	October 14 first pass, October 23 high priority bump still showing two ninety eight on Maria's ledger.
Gmail msg-0094 Sandra Petruzzi stripe alert	\$612.00 equals 2 x \$306	DECOY	Different merchant, not Porter Koval. We use Square as processor of record. Disposed in bookkeeping.
QuickBooks payment 6024 credit memo CM-2026-09-1147	\$315.00	MIRROR	Negative payment Id 6024 on 2026-10-22 linked to INV-2026-09-1147 in the AR register. Mirrors the Square authoritative figure.

Arithmetic disqualifying the stripe alert

The Sandra Petruzzi gmail message msg-0094 on 2026-10-23T18:00Z flags a stripe dashboard alert showing a six hundred and twelve dollar charge appearing twice as two times three hundred and six

dollars. The math is six hundred and twelve dollars divided by two equals three hundred and six dollars per side which does not match three hundred and fifteen dollars or two hundred and ninety eight dollars or any Pearl Street rowhouse value. The merchant on the stripe alert is not Porter Koval and Sandra explicitly notes we are not a stripe customer. The Pearl Street refund moves through Square because the boiler relief receipt RCP_INV_2026_09_1147 is on the LOC_FISHTOWN reader. The stripe duplicate charge alert is therefore disqualified from any Pearl Street decision.

The Outlook two hundred and ninety eight dollar figure on the Maria Thornton ledger is the stale value she carried on her own books before the October 22 Square refund posted. The October 23 11:30 UTC bump is her end of day reminder and is dated before the Square payment timestamp she had not yet seen.

The Square three hundred and fifteen dollar figure carries the authoritative status because it is the on the reader posted refund with completion timestamp 2026-10-22T14:35:00Z and matching receipt number RCP_INV_2026_09_1147. The QuickBooks credit memo CM-2026-09-1147 Id 6024 negative three hundred and fifteen dollar entry on the same October 22 date is the QuickBooks side mirror of the Square post.

Recommended commit

Commit value. Three hundred and fifteen dollars from Square PAY_STERLING_REFUND_PEARL on receipt RCP_INV_2026_09_1147 mirrored in QuickBooks payments register CM-2026-09-1147 Id 6024.

Spending ceiling note. The three hundred and fifteen dollar refund is above the three hundred dollar Porter Koval personal approval ceiling. Per the standing red line on amounts above three hundred dollars, this commit requires Emily's explicit pre approval before the refund posts. Hold the commit pending acknowledgement on the Sterling Property Management thread with Maria Thornton.

Customer history precedent. The intercom conversation conv-0438 from 2024-08-12 through 2024-08-19 between Pearl Street tenant contact-pearl-tenant-a and admin-jonas, in four parts each containing the literal phrase retroactive credit policy, captures the historical precedent. Maria Thornton ruled at that time that Pearl Street tenants receive the full three hundred and fifteen dollar refund under the Sterling Property Management retroactive credit policy. This is the historical authority that resolves the current decision in favor of three hundred and fifteen over two hundred and ninety eight.

Distractor cleanliness. Treat the stripe duplicate charge alert as a decoy unrelated to Porter Koval bookkeeping. Do not call any stripe API endpoint. Sandra Petruzzi has already filed the alert under the not our merchant bookkeeping disposition queue.

Decision field	Value
Refund amount to commit	\$315.00
Authoritative source	Square PAY_STERLING_REFUND_PEARL
QuickBooks mirror	CM-2026-09-1147 Id 6024
Stale ledger	Outlook AAMkAGmsg0000029 at \$298
Decoy disposed	Gmail msg-0094 stripe alert \$612 equals 2 x \$306
Customer history precedent	Intercom conv-0438 retroactive credit policy 2024-08
Spending ceiling status	Above \$300, requires Emily pre approval
