Vehicle Signage Proof, Service Van Number Two

This proof shows the layout for the service van number two graphics wrap. The graphics are produced by Independence Sign Works in South Philadelphia and applied on the standard schedule at the Independence shop.

Layout Specifications

Vehicle	Ford Transit 250 mid roof, model year 2024, white base coat
Wordmark	Inter Bold, 14 inch cap height, Porter Copper on a Porter Navy panel that runs from the front wheel arch to the rear door
License Display	Master plumber license number displayed at 4 inch cap height on the rear door, Porter Navy on white
Contact Strip	Shop phone number and shop URL on the rear door beneath the license display, 3 inch cap height, Porter Slate
Web URL	www.porterkoval.example.com
Reflective Strip	DOT compliant reflective tape along the lower body, white and red, standard pattern

Production Notes

The wrap material is 3M IJ180 vinyl with a 3M 8520 luster overlamine. Color match for Porter Navy is reviewed against the master color chip before printing. Color match for Porter Copper is reviewed in the same manner.

Installation is scheduled in the morning at the Independence Sign Works shop. The van is left overnight to ensure full cure of the adhesive prior to return to the field. The expected service life of the wrap is five to seven years under normal Philadelphia exposure.

Touch up kit including spare vinyl and seam tape is provided to Porter & Koval at the time of installation and is stored at the shop in the signage drawer.
