What this statement is and is not

This is one vendor's statement, not the bakery ledger. It does not include Penzeys, Restaurant Depot, the chestnut cream vendor, Uline packaging, or any wholesale revenue. Books of record for Russell's Pastries live in QuickBooks; every cost and margin conclusion must trace to QuickBooks, not to this statement.

The signature holiday pie unit cost and the Q4 holiday-line revenue projection are set on the QuickBooks close, not on any single-supplier figure shown here. This King Arthur account covers flour and cultured butter

only; spice, dairy-other,
chestnut cream, and
packaging sit with other
vendors.
