TEACHER COMMENTS

Hazel has been a real joy this semester. She is curious, chatty, and brings energy to every

discussion. Her reading ability puts her ahead of many of her classmates and she is generous about helping others with phonics games.

Where I would like to see growth in the spring is in slowing down during writing. Hazel has excellent ideas but she does not like sitting with the process. We have talked about it together and she is aware of it. I am going to try drawing-as-planning strategies in January.

Hazel has started asking classmates more personal questions than is typical for first grade. This is not a behavioral problem and she is never unkind about it. Worth a gentle conversation at home. She seems settled and happy overall.
