

Appointment Preparation Packet

Carlos Whitfield | Prepared Sep 28, 2026

October 6 - Dr. Laura Chen (Endocrinology)

Location: Westside Diabetes and Endocrine Clinic, Beaverton

Prep: Schedule HbA1c lab draw at Fred Meyer or Quest 5-7 days before. Fast 8 hours before blood draw. Bring glucose log if keeping one.

Bring: Updated medication list (print from medication_reconciliation_report). Current HbA1c results. Questions about diabetes management.

Key question: Is current metformin dose adequate given recent A1c trend?

November 11 - Dr. James Whitfield (Cardiology)

Location: Pacific Heart Associates, Portland

Prep: Note any palpitations, dizziness, or shortness of breath since July visit. Record resting heart rate for 3 consecutive mornings before visit.

Bring: Updated medication list. Note about metoprolol dose increase working well (or not).

Action items: Request new apixaban prescription (1 refill remaining). Confirm metoprolol 50mg is achieving target heart rate.

December 9 - Dr. Anita Sharma (PCP)

Location: Riverview Medical Partners, Beaverton

CRITICAL: Call office BEFORE this visit to update metoprolol from 25 mg to 50 mg in their system.

Bring: Updated medication list. Note atorvastatin switch to Accord Healthcare generic (cosmetic, not clinical).

Topics: Annual wellness review. Furnace replacement stress. General health maintenance.

Note: Dr. Sharma records still show Ranbaxy for atorvastatin - mention the Accord Healthcare switch for chart accuracy.
