RE Annual Preventive Visit Overdue

Dear Ms. Cortez,

Our records show that your annual preventive visit with Rachel Feldman, MD is now overdue. Your last completed adult wellness examination in our system is dated October 9, 2025. Based on your care plan and the recommendations from your prior visit, a follow up wellness examination was expected within twelve months.

During the upcoming visit Dr. Feldman would like to review the following items with you.

Item	Notes from Care Plan
Blood pressure trending	Two elevated readings recorded during 2025 visit.
Lipid panel and A1C	Fasting labs recommended at time of appointment.
Dermatology follow up	Referral pending for annual full skin check.
Occupational fatigue screening	Discussed given night shift rotation.
Immunization update	Influenza and Tdap booster status to be reviewed.

To schedule your appointment please contact our office directly at 617-559-8100 during the hours listed below or reply to your patient portal message. We would appreciate hearing from you within the next thirty days so that we can find a time that works around your clinical schedule at Boston Medical Center.

Office hours are Monday through Friday 7:30 AM to 5:00 PM and Saturday 9:00 AM to 1:00 PM. If you are experiencing any acute medical concern please call the office or seek care at your nearest emergency department.

Sincerely,

Rachel Feldman, MD
Panel Physician, Roslindale Adult Medicine

ANNUAL PHYSICAL - OVERDUE REMINDER

Our records show Kerry M. Cortez is due for an annual comprehensive physical with Dr. Rachel Feldman. The last completed visit was in October 2025. Please schedule at your convenience; this is a preventive-care visit fully covered under most plans, including the BMC PPO.

PREPARING FOR YOUR VISIT

- Fast for 9 to 12 hours before the visit if lipid or glucose labs are ordered; water and routine medications are fine.
- Bring a current medication and supplement list, your insurance card, and a photo ID.
- Note any new symptoms, sleep concerns, or stress changes; night-shift schedules are worth discussing with the provider.
- Bring questions about immunizations; flu and Tdap boosters can often be given the same day.

WHAT TO EXPECT

The visit includes vitals, a head-to-toe examination, a review of screenings appropriate for your age, and time to discuss any concerns. Standard labs (CBC, metabolic panel, lipid panel) may be drawn on site; results post to the patient portal within a few business days.
