Annual Physical Examination Report

Patient Information

Patient: Greg Howard

Date of Birth: January 15, 1994

Address: 4217 Deland Avenue, Columbus, OH 43214

Phone: (614) 555-0118

Date of Visit: February 12, 2025

Provider: Dr. Sarah Chen, MD, Internal Medicine

Facility: Meridian Medical, 2840 Olentangy River Road, Columbus, OH 43214

Phone: (614) 555-0267

Vital Signs

Weight: 138 lbs Height: 5'7" BMI: 21.6

Blood Pressure: 114/72 mmHg Pulse: 62 bpm O2 Saturation: 99%

Clinical Findings

General: Patient is a 31-year-old female in good general health. Active lifestyle as a pediatric physical therapist and recreational runner. No acute distress.

Cardiovascular: Regular rate and rhythm, no murmurs detected. Peripheral pulses normal bilaterally.

Musculoskeletal: Chronic right hamstring tightness noted, consistent with prior 2014 surgical repair. Patient reports active daily stretching protocol. Range of motion within functional limits. No acute findings.

Laboratory Results

Complete Blood Count: Mild iron deficiency anemia identified. Ferritin 11 ng/mL (reference range 15 to 150 ng/mL, low). Hemoglobin 11.8 g/dL (mildly low).

Vitamin D 25-OH: 22 ng/mL (reference range 30 to 100 ng/mL, low-normal).

Comprehensive Metabolic Panel: All values within normal limits. Fasting glucose 84 mg/dL. Creatinine 0.72 mg/dL. Liver enzymes within range.

Lipid Panel: Total cholesterol 172 mg/dL, LDL 98 mg/dL, HDL 61 mg/dL, Triglycerides 87 mg/dL. All within desirable range.

Recommendations

1. Continue ferrous sulfate 325 mg daily taken with orange juice or a vitamin C source to improve absorption. Avoid taking with calcium or coffee.
2. Continue vitamin D 2000 IU daily supplementation.
3. Repeat labs including ferritin and vitamin D panel in 12 months.
4. Continue current exercise regimen. Use caution on high-intensity speed work given hamstring history. Maintain warm-up and cool-down stretching.
5. Annual dental cleaning recommended.
6. No other clinical concerns at this time.

Next Appointment: February 2026
