Supervisor Comments

Greg consistently demonstrates exceptional clinical judgment and genuine advocacy for her patients and their families. Her documentation is thorough and her ability to navigate complex insurance authorization processes has directly improved access to care for several high-need families this year. I am particularly impressed by her initiative in developing a family exercise guide and encourage her to continue that project. One area for continued growth is delegation of administrative burden to support staff when appropriate. Overall, Greg is one of our strongest clinicians in the pediatric wing and a valued member of our team.

Dr. Karen Whitfield, January 15, 2025
