R&D; and Initiatives

Rice spirit project (HB-2026-018): Koji protocol finalized in collaboration with Dr. Liang. First pilot batch begins fermentation January 2026. ACSA presentation November 2026.

FS 572 adjunct teaching: Fall 2025 section completed December 2025. Spring term section begins January 12.

Tasting room renovation (phase 1): New bar surface and lighting installed October 2025. Door count up 11% year-over-year.

Staff: Tyler Briggs promoted to Production Manager (November 2025). Two new part-time event staff hired.

Goals for 2026

Complete rice spirit pilot; target commercial formula TTB filing by end of 2026.

Barrel selection event: release B-287/288/289 (Year 4 bourbon) in autumn 2026.

Grow wholesale accounts to 55 active (from 42 in 2025).

Tasting room renovation phase 2 (outdoor seating permit application in Q4).

10th anniversary celebration event: October 17, 2026.
