USING YOUR BENEFITS

Show the member ID at check in, either the printed card or the card image on the phone. A primary care visit costs the 30.00 copay. A specialist visit costs 55.00. Both apply before the deductible for office visits, which keeps routine care predictable.

Physical therapy applies the specialist copay per visit until the individual deductible of 1,500.00 is met, after which the plan pays covered services in full up to the out of pocket maximum of 5,000.00. Once the out of pocket maximum is reached in a plan year, covered in network services are paid at 100 percent for the rest of that year.

PRESCRIPTIONS

Generic prescriptions are 12.00 at any in network pharmacy. Preferred brand drugs carry a higher copay and may need the deductible met first. Over the counter items such as ibuprofen are not billed to the plan and are paid out of pocket. Ask the prescriber for a generic when one is available to keep the cost at the low copay.

NETWORK PROVIDERS ON FILE

Primary care	Dr. Kevin Pham, Decatur Family Medicine
Physical therapy	Decatur Physical Therapy (in network)

Staying in network keeps the copays above in force. Out of network care is covered at a lower rate and can apply a separate deductible, so confirm a provider is in network before a visit.

DENTAL AND VISION

Dental is separate and is not part of this medical plan. Dental care runs through Dr. Amy Chen at Decatur Dental Associates. Routine cleanings twice a year are handled on that plan, not this one. Vision is not included on this plan. The last eye exam was in 2024 with no correction needed.

PREVENTIVE CARE

One routine annual physical is covered in full when done by an in network primary care provider. Standard preventive screenings appropriate for age are covered the same way. The annual physical with Dr. Pham each February is the anchor for this, and it does not draw down the deductible.

COMMON QUESTIONS

What counts toward the deductible? Covered medical services other than the flat office copays. Once 1,500.00 in covered costs is reached, the plan share increases.

What if I need care after hours? Urgent care is a 60.00 copay. The emergency room is 250.00 and then the deductible, so use urgent care for anything that is not an emergency.

How do I keep costs down? Use in network providers, ask for generic prescriptions, and lean on the primary care copay for routine issues before a specialist.

Does the plan cover the back therapy? Yes, physical therapy is covered at the specialist copay per visit, subject to the deductible rules above.

HOW CLAIMS AND APPEALS WORK

In network providers file claims directly. An explanation of benefits follows each visit, showing the billed amount, the plan share, and the member share. If a claim is denied, a written appeal can be filed within the timeframe listed on the explanation of benefits. Keep every explanation of benefits until the matching provider bill clears.
