EMERGENCY FUND GOAL TRACKER

| Measure                     | Value        |
|-----------------------------|--------------|
| Target                      | 10,000.00    |
| Current                     | 4,800.00     |
| Remaining                   | 5,200.00     |
| Progress                    | 48 percent   |
| Average set aside per month | about 455.00 |

At about 455 dollars set aside per month you reach the 10,000 goal in roughly 11 to 12 months, assuming no withdrawals. Overtime months push a little extra in and pull the date closer. Truck parts come out of a separate spending line, not this account, so the fund keeps climbing even during a build month.

ACCOUNT TERMS

This is a regular share savings account. Dividends are calculated on the daily balance and paid monthly. There is no monthly service fee while the membership share is on deposit. Federal rules limit certain

outbound transfers per month, which is well above normal use here.

Transfers between checking ending 4471 and this savings account post the same day when made before the evening cutoff. A standing transfer moves money to savings each month on the 12th.

## **HOW TO REACH US**
