Division of General Time Corporation

75 Thomaston Avenue, Thomaston, Connecticut 06787

May 2, 2003

Mrs. Megan E. Turner
48 Elm Street
Thomaston, CT 06787

Re: Notice of Position Elimination and Separation

Dear Mrs. Turner,

It is with regret that we write to inform you that your position as Quality Inspector II has been eliminated effective June 14, 2003. This decision follows the transfer of final assembly and inspection operations to our Nogales, Mexico facility, which was completed in the first quarter of 2003. Your position, and those of your colleagues in the Quality Assurance department, are among the roles that will not be carried forward at the Thomaston facility.

We recognize that this is difficult news and we want to acknowledge your twenty-eight years of service to Seth Thomas. You joined the company as an Inspector I on March 3, 1975, and your meticulous work and steady performance have been a genuine asset to this facility and to the Seth Thomas name. We are sorry that we cannot offer you a different outcome.

Your separation package is as follows:

Item	Detail
Final date of employment	June 14, 2003
Severance pay	14 weeks base pay at \$16.40 per hour, full-time equivalent
Severance total (gross)	\$9,191.60
Accrued vacation payout	80 hours (two weeks) at \$16.40 per hour = \$1,312.00
COBRA continuation eligibility	18 months from separation date
Pension vesting	Fully vested; contact benefits office for pension election options
Reference letter	Available on request from your direct supervisor or HR

Please contact the Human Resources office at extension 214 to schedule an appointment to sign the separation agreement and collect your final paperwork. The separation agreement must be signed no later than June 7, 2003.

We wish you well, Mrs. Turner. Your work here meant something, and we hope you know that.

Sincerely,

James P. Noonan

Human Resources Director
