Cookbook page layout proof (spreads 1-40)

This proof captures the current layout state of spreads 1 through 40 for the Estrela cookbook. Status per spread: PLACED (image and layout locked), PENDING (awaiting photo select), REVISION (layout returned for adjustment), OPEN (structure only, awaiting content decision).

Total spreads in book: 112 (224 pages). This proof covers Section A (spreads 1-40, chapters 1-3: Mornings, Pao + Breads, Soups + Caldos). Sections B and C circulate in later proofs.

Publisher tag taxonomy: Every recipe carries the dairy / dairy-free tag on the recipe-page header per Salt + Press editorial standard. See Section 4 of the cookbook delivery spec (SP-COOK-2026-ESTRELA-014 v4) for the tag rules.

Layout caveats

- Every recipe tagged DAIRY or DAIRY-FREE. Do not use variants (nondairy, plant-based, milk-free, vegan). Any tag drift is auto-rejected at Salt + Press intake pipeline SP-INTAKE-v3.
- Recipe text length target: 350-400 words for recipes with method under 8 steps; 500 word cap for 8-12 step methods. Any recipe over 500 words needs a two-page recipe layout (see Spread 12 revision).
- Chef notes are set in italic Caslon Pro at 10 pt; typical length 40-60 words per recipe. Reduce below 40 words if recipe method occupies more than 60 percent of the recipe page.
- Image credits: every image carries a photographer credit in the back matter. No inline credits on individual spreads.

Section A locked for review at Nov 8 production meeting. Photographer selects due Nov 15 per delivery spec Tranche 1. Any structural change post-Nov 8 requires Rebecca approval and may push Tranche 1 acceptance date.

Layout proof revision v3 prepared by Mateo Rivera, 2026-10-06. Circulate to author + photographer + editor for review. Feedback due Oct 12 for v4 revision.
