Price Governs Downstream

The binding price is 305,000 USD. This corroborates the completed DocuSign signed-offer envelope. Other figures circulating around the deal - the 318,000 opening ask, the 309,000 appraisal, the 329,000 open-market listing, and the 312,000 superseded draft that was withdrawn - do not bind and must be set aside with their reasons named.

Executed agreement. Anything drafted to the attorney is held for Natalie to read and approve before it leaves.
