Subject RE Mobilité Plateau briefing note for 15 October consultation

From Jean-Francois Lavigne, Ville de Montréal

Sent Sunday 20 September 2026, 08 42 (Eastern Time)

To Ruth Armstrong

Ruth bonjour.

The pre consultation briefing note for the 15 October room needs to reach me before you board for Halifax on 8 October. I want the room ready read on the corridors, the reach story, and the outreach plan. Nothing you would not stand behind in front of Ouellet.

As a standing reminder any communication that touches the elected side of the borough passes through you and through me. That includes any friendly heads up to Ouellet. I do not want to find anything in circulation that neither of us has personally cleared.

The Halifax ICU conference is 8 to 10 October. If the deck references Plateau it holds behind the 15 October embargo. Nothing pre release goes out on the Halifax microphone.

Merci.

Jean-Francois Lavigne

To Jean-Francois Lavigne

Bonjour Jean-Francois.

Understood on the timeline. Briefing note will be with you before I leave for Halifax on the 8th. I will hold the Plateau numbers behind the 15 October embargo. The Halifax deck will carry the Parc Extension work and the framework material only. Nothing pre release from Plateau will touch the microphone.

For clarity on process I have not personally cleared any new outward communication to the council side in this cycle. I will do so through you before the consultation. Sophie is holding the community organizer side and will pass anything material through me before it moves.

Will circle back if the cross departmental review on the 24th shifts anything material.

Cc Jean-Francois Lavigne

Bonjour Ruth.

A quick note before the 15 October room. Two constituent files this week already ask about parking loss on Saint Denis. Can you share the parking loss modelling that will support the room. I would like to be able to answer with the same number you will use on the mic.

Please keep me informed in the run up to the consultation. I expect constituent calls the day after and I want to be able to speak to what was said in the room without going past what was said.

Merci et bonne fin de semaine.

Bonjour David.

I hear you on the parking question. The modelling is being finalised inside the methodology work that closed on 24 September. Any pre release figure stays behind the 15 October room. What I can share ahead of the room is the framing and the design intent for delivery windows on the Saint Denis segment. The point estimate will be spoken to on the mic on the 15th.

You will have my draft speaking points before the room. I will route through Jean-Francois first as standard.

Bien à vous.

Bonjour Ruth.

Quick line for the record. I am handling the ACS DP outreach on the delivery windows and will send a formal write up by end of day. The association read is warmer than the July file. I will hold anything outbound to the merchants side until you have approved the delivery window phrasing you want in the councillor briefing.

Also flagging that the Bengali parent group on Rue Saint Laurent nord told me on 2 October that they never received the survey link. I will pass this to Amara for the delivery ledger check and will keep the community side calm.

Bonjour Sophie.

Thank you for holding the delivery window phrasing until my sign off. As stated to Jean-Francois already I have not personally cleared any new outward communication to any elected or association contact in this cycle. Any wording that lands with the ACS DP or the ward associations passes through me first, and if it touches the elected side it passes through Jean-Francois as well.

On the Bengali parent group please pass what you have to Amara for the delivery ledger check. Please do not send anything to that group in my name until we have the reach picture cleaned up. If any pre release Plateau figure has to be used to answer a question, we do not answer it before the room on 15 October at 7 PM. Halifax ICU on 8 to 10 October stays clean of any pre release Plateau number in the same way.

Merci pour tout ton travail sur le terrain.
