SBA 7(a) Expansion Loan Application Package

Prepared for Brightpath Financial, Small Business Lending Division. Reference BPF-SBA-2026-1457.
Prepared by David Hayes, owner, February 2026.

Business Overview

Hayes Auto Works is a single owner LLC operating a two bay general repair shop at 6847 Warren Ave in East Dearborn, Michigan. The shop was founded by Robert Hayes in 1998 and has been under David Hayes as sole owner since 2021. Services cover general repair, diagnostics, brakes, transmission, electrical, AC, and state inspections.

Legal name	Hayes Auto Works LLC
Owner	David Hayes
Location	6847 Warren Ave, East Dearborn, MI 48126
Founded	1998. Current owner since 2021.
Staff	Owner plus office manager and one technician.
Rating	4.7 stars across roughly 340 reviews.

Financial Summary

The shop runs stable monthly revenue near 28,000 dollars with net to owner around 6,500 dollars. The figures below summarize the trailing six months and match the cash flow worksheet shared with Brightpath.

Average monthly revenue	27,000 dollars
Average parts and COGS	11,000 dollars
Monthly payroll	6,000 dollars
Average net to owner	6,000 dollars
Operating reserve	22,000 dollars in business account
Owner credit score	740 FICO

Repayment Capacity

A 45,000 dollar term loan adds a manageable monthly payment well inside current net cash flow. The third bay is projected to lift monthly revenue by 6,000 to 8,000 dollars once the second technician is fully booked.

Use of Funds

Total project cost is 50,000 dollars. The loan covers 45,000 dollars and the owner contributes 5,000 dollars from personal savings.

Second service bay buildout	35,000 dollars
Hydraulic two post lift	8,000 dollars
Electrical upgrade, permitted	5,000 dollars
Permits and inspection	2,000 dollars
Total project cost	50,000 dollars
SBA loan requested	45,000 dollars
Owner contribution	5,000 dollars

Market and Demand

About 80 percent of business comes from neighborhood regulars. Demand already exceeds two bay capacity during winter prep season, which pushes some jobs out by several days. A third bay captures that overflow and shortens turnaround.

Hiring Plan

The expansion adds one full time technician alongside Sam Haddad. Payroll is handled through Gusto. Onboarding follows the shop operating procedures so service quality holds steady as volume grows.

Timeline

- Final financials to Brightpath by October 15, 2026.
- Permit filing with the City of Dearborn after loan approval.
- Bay buildout and lift install over roughly eight weeks.
- Second technician hired once the bay passes inspection.

Owner Statement

I have run this shop with the same promise my father made in 1998, honest work at a fair price. This loan lets Hayes Auto Works serve more of our neighbors without cutting the corners that built our name.

David Hayes, owner, Hayes Auto Works, February 2026.
