3. Coverage Terms

3.1 Equipment coverage: All insured equipment listed above is covered against loss, theft, and accidental damage during professional use in the field, in transit, and in approved storage locations. Coverage extends to use in saltwater environments and to depths up to 40 metres.

3.2 Liability coverage: Third-party liability coverage of EUR 1,500,000 per incident applies to all dive operations conducted under this certificate. Coverage is conditional on compliance with the applicable dive safety protocols and the possession of a current dive medical certificate by all divers covered.

3.3 Exclusions: Coverage does not extend to wilful damage, operation outside certified depth limits, or operations conducted by persons not holding the required certification.

4. Claims Procedure

All claims must be notified to Nordsee Versicherung AG within 48 hours of the incident by telephone (+49 40 555 9100) and followed by written notification within 7 days. A completed claim form, photographs of any damaged or lost equipment, and a statement from the dive master are required for all dive-related claims. The insurer reserves the right to appoint an independent assessor for claims exceeding EUR 2,000.

5. Certificate Conditions

This certificate is issued subject to the general policy conditions available from Nordsee Versicherung AG on request. The insured party accepts responsibility for maintaining all equipment in serviceable condition, for storing dive cylinders in compliance with applicable safety regulations, and for ensuring that all operational divers hold current dive medical certificates and appropriate CMAS or equivalent qualifications.
