Lower Back Care, Daily Routine

Prepared for Aaron Delgado. For mild chronic lower back tension related to prolonged sitting. Perform once in the morning and once in the evening. Stop any movement that causes sharp pain and contact the clinic.

Routine

Exercise	Hold or reps	Notes
Cat to cow	8 slow reps	Move with the breath, no forcing
Child's pose	60 seconds	Knees wide, reach long
Single knee to chest	30 seconds each side	Keep the opposite leg relaxed
Supine spinal twist	30 seconds each side	Shoulders stay on the floor
Glute bridge	10 reps	Squeeze at the top, slow down
Standing hip flexor stretch	30 seconds each side	Use the desk for balance
McGill curl up	8 reps each side	Hands under low back, small lift

Daily Habits

- Stand and walk for two minutes every 45 minutes at the desk.
- Keep the ergonomic chair set so hips sit slightly above the knees.
- Judo conditioning and core work twice per week support the lower back.
