Award Summary

The Meridian Public Health Foundation is pleased to notify the Chesapeake Institute of Public Health of a grant award in the amount of \$425,000 over three years to support the above-named project. This award is made under the Urban Health Equity Research Initiative, which supports applied, community-embedded public health research with direct relevance to urban populations experiencing health disparities.

The funded project will establish and sustain a prospective, multi-site respiratory illness surveillance network across six Baltimore City neighborhoods, generating individual-level data on disease burden, social risk factors, and housing conditions. Findings will be disseminated through peer-reviewed publications, conference presentations, and community-facing reports that inform local public health policy.

Conditions of Award

1. Funds must be used in accordance with the approved budget and project plan. Budget modifications exceeding 10 percent of any line item require prior written approval from the Foundation program officer.
2. Quarterly progress reports are due within 30 days of the end of each quarter. Reports must be submitted through the Foundation's reporting portal (Box-shared folder, grant reference MPH-2023-URB-0417).
3. All publications arising from this research must acknowledge Meridian Public Health Foundation support with the following statement: 'This work was supported by the Meridian Public Health Foundation (Grant Number MPH-2023-URB-0417).'
4. The PI must notify the Foundation within 30 days of any significant change in personnel, scope, or timeline.
5. Indirect costs are capped at 3.5 percent of total direct costs per year, consistent with CIPH institutional policy and Foundation guidelines.
