TSH	2.1	0.4 to 4.0	mIU/L	
Vitamin D, 25-OH	38	30 to 100	ng/mL	

Provider Note

Results are reassuring overall. LDL is marginally above target. Given your GERD history and the decision to avoid NSAIDs, we will manage this with diet and your daily walk rather than new medication for now, and recheck at your December visit. Blood pressure log reviewed and stable on amlodipine. Continue omeprazole each morning before breakfast. Please consult Dr. Park with any questions; this report is informational and not a substitute for medical advice.
