

Newark Community Health Centers Chronic Care Visit Summary

Patient: Elena Reyes DOB: March 9, 1958 Age: 68

Care coordinator on file: Lisa Marie Reyes (daughter)

Visit date: February 12, 2026

Provider: Dr. Patricia Almeida

Reason: Type 2 diabetes management

Assessment

Type 2 diabetes, well managed on metformin. A1C stable. Continue current dose.

Mild osteoarthritis. Acetaminophen as needed. Gentle daily activity encouraged; patient cooks and keeps house daily.

Blood pressure within range. Diet consistent, home cooked, lower sodium per household change.

Plan

Refill metformin. Pharmacy pickup coordinated through the family on Saturdays.

Routine diabetic foot and eye checks current.

Follow-up in three months or sooner if readings change.

Care questions route to Dr. Patricia Almeida at 973-555-0289. Information shared with the patient and the named family coordinator only.
