
Palmetto Health Shuttle Service Agreement

1. Parties

This service agreement is between Palmetto Health Network, referred to as the client, and Ward Taxi & Car Service LLC, referred to as the operator, owned by Ashley Ward and based in Allapattah. The operator provides scheduled shuttle transportation between designated facilities and park-and-ride points within Miami-Dade County.

Client	Palmetto Health Network
Operator	Ward Taxi & Car Service LLC
Owner	Ashley Ward
Annual value	\$42,000
Vehicles assigned	SED-07, SED-08
Review date	January 20, 2026
Billing	Monthly, see invoicing tracker X07

2. Scope of service

- Two assigned sedans run the shuttle loop on a fixed weekday schedule.
- Drivers Nadia Pierre and Hector Salazar are the primary assignments.
- Service hours run from early morning through mid-afternoon.
- Backup coverage is drawn from the relief pool when a primary is out.

3. Compensation

Line	Amount
Monthly service fee	\$3,500
Annual contract value	\$42,000
Fuel surcharge	Included in monthly fee
Late payment terms	Net thirty days

4. Service standards

The operator commits to on-time performance, clean and maintained vehicles, and licensed drivers. Vehicle maintenance is tracked in workbook X03, and both assigned sedans are current on service. The operator carries commercial fleet insurance through Coral Gables Insurance Group, summarized in P01.

5. Renewal and medical transport note

This relationship is the foundation for the operator's planned non-emergency medical transport service through the Florida Agency for Health Care Administration, targeted for January 25, 2027. The client has expressed interest in expanded medical transport once the operator is licensed. The plan is detailed in the application draft P03 and deck PP01.

6. Signatures

This review copy is held for internal records. Any amendment is executed through DocuSign after a final read-through by Ashley Ward. Questions on billing route to the operator; questions on scheduling route to the client coordinator through the established channel.

Ashley Ward, Operator

Palmetto Health Network, Client

7. Service schedule

The shuttle runs a fixed weekday loop. The schedule below is the operating baseline. Holiday exceptions are coordinated in advance through the client coordinator and reflected on the calendar export V01.

Run	Departure	Vehicle	Driver
Morning inbound	0530	SED-07	Nadia Pierre
Midday loop	1100	SED-08	Hector Salazar
Afternoon outbound	1430	SED-07	Nadia Pierre
Relief coverage	As needed	Float sedan	Relief pool

8. Performance standards

- On-time departure within five minutes of the scheduled time.
- Vehicles cleaned daily and maintained per the log in X03.
- Drivers in company attire with current commercial licensing.
- Monthly performance summary shared with the client coordinator.

9. Term and renewal

The agreement runs on an annual basis and was reviewed on January 20, 2026. Either party may propose amendments at the annual review. The operator intends to propose expanded medical transport volume once the AHCA license is in hand, targeted for January 25, 2027. See the application draft P03 and the business plan deck PP01 for that proposal.

10. Billing schedule

Billing runs monthly at a flat service fee. Invoices issue at month end and are tracked in the invoicing tracker X07. Payment terms are net thirty days. The schedule below is the standard cadence for the contract year under review.

Invoice period	Issue	Amount	Terms
Month one	Month end	\$3,500	Net thirty
Month two	Month end	\$3,500	Net thirty
Month three	Month end	\$3,500	Net thirty
Annual total		\$42,000	

11. Contacts

Operational scheduling routes to the client coordinator through the established channel. Billing questions route to the operator. Vehicle and safety records are available on request and are held in workbooks X02 and X03.

12. Closing

This review copy confirms the working terms for the year. The operator values the trust the client places in the service and intends to grow the relationship into medical transport once licensed. Any amendment is executed through DocuSign after a final read-through by Ashley Ward.
