Re: Request for expanded ground transportation queue slots

To the Ground Transportation Office,

I write on behalf of Ward Taxi & Car Service LLC, a Miami-Dade ground transportation operator based in Allapattah and in continuous operation since 2000. We currently hold queue access for our airport service line and operate eight sedans and four vans, twelve vehicles in total.

Over the past several years our airport queue revenue has declined while passenger demand at the terminal has recovered. We believe our service record, safety history, and driver tenure support a request for expanded queue slots during peak arrival windows. Our drivers average more than five years of tenure and all hold current commercial licensing.

We respectfully request a review of our current allocation and a meeting to discuss expanded peak-hour access. We are prepared to provide our vehicle roster, insurance binder, and safety records on request. Our fleet maintenance and driver documentation are current and available for inspection.

Supporting summary

Operator	Ward Taxi & Car Service LLC
Owner	Ashley Ward
Yard	7340 NE 2nd Avenue, Allapattah, Miami, FL 33138
Fleet	8 sedans, 4 vans
Airport units	SED-01, SED-02, SED-15 relief
Average driver tenure	More than 5 years
Current annual queue revenue	Approximately \$85,000

We understand queue allocation balances many operators and we appreciate the office's attention to fairness and safety. Should additional documentation help the review, we will provide it promptly. We have logged this request in our internal tracker and will follow up by phone in thirty days if we have not received a reply.

Closing

Thank you for your time and for the work the office does to keep terminal transportation orderly. We look forward to your reply and to continuing a constructive working relationship.

Respectfully,

Ashley Ward
Owner, Ward Taxi & Car Service LLC
Allapattah, Miami, FL

Attachment A: vehicle roster

The following vehicles are available for airport queue service. Two sedans run the queue primarily, with relief coverage drawn from the city dispatch pool during peak windows.

Unit	Vehicle	Year	Assignment
SED-01	Toyota Camry	2021	Airport queue
SED-02	Toyota Camry	2021	Airport queue
SED-03	Toyota Camry	2022	Hotel contract
SED-04	Toyota Camry	2022	Hotel contract
SED-05	Toyota Camry	2020	City dispatch
SED-06	Toyota Camry	2020	City dispatch
SED-07	Toyota Camry	2023	Palmetto shuttle
SED-08	Toyota Camry	2023	Palmetto shuttle

Attachment B: service record

- In continuous operation as a Miami-Dade ground transportation company since 2000.
- Average driver tenure exceeds five years across the roster.
- All drivers hold current commercial licensing, verified in workbook X02.
- Commercial fleet insurance is current through Coral Gables Insurance Group.
- Clean recent incident history, summarized in the renewal file P01.

Attachment C: follow-up plan

If no reply is received within thirty days of this letter, the operator will follow up by phone with the Ground Transportation Office and request a meeting. This request and its follow-up date are logged in the internal tracker and on the calendar export V01. The operator remains available to provide any additional documentation the office may require to complete its review.

Attachment D: operating history

Ward Taxi & Car Service LLC has served Miami-Dade ground transportation continuously since 2000, founded with a single sedan and grown to a twelve-vehicle fleet. The owner drove taxis and ran overnight dispatch for a Miami-Dade company through the 1990s before founding the business. That long familiarity with the airport corridor and the terminal queue is the basis for this request.

Era	Milestone
1990s	Driving and overnight dispatch experience
2000	Ward Taxi founded with one sedan
2012 to 2020	Fleet growth and contract expansion
2025	Twelve vehicles, four service lines

Attachment E: contact for this request

Correspondence on this request may be directed to the owner at the company yard in Allapattah or by the business phone line. The operator will make a representative available for any meeting the office schedules and will provide the vehicle roster, insurance binder, and safety records on request.
