
AHCA Non-Emergency Medical Transport License, Application Draft

1. Applicant

Legal entity	Ward Taxi & Car Service LLC
Owner	Ashley Ward
Principal address	7340 NE 2nd Avenue, Allapattah, Miami, FL 33138
Years in operation	Since 2000
Fleet size	12 vehicles
Target submission	January 25, 2027
Licensing body	Florida Agency for Health Care Administration

2. Service description

Ward Taxi proposes to add non-emergency medical transport for ambulatory and wheelchair-assisted passengers within Miami-Dade County. The service builds on the existing Palmetto Health shuttle relationship and the company's twenty-six years of dispatch and routing experience. Two Chrysler Pacifica vans, units VAN-04 and VAN-03, will be modified for wheelchair securement.

3. Vehicle modification plan

Unit	Vehicle	Modification	Estimated cost
VAN-04	Chrysler Pacifica 2023	Wheelchair lift and securement	\$4,000
VAN-03	Chrysler Pacifica 2023	Wheelchair lift and securement	\$4,000
Total			\$8,000

4. Financial projection

Capital outlay totals \$8,000 across the two vans. Net monthly contribution from incremental medical trips is projected at \$2,520 across both vehicles after added fuel, upkeep, and an insurance rider. Capital recovery is therefore projected at fourteen months. The full model, including per-van detail, is held in workbook X05 and summarized in deck PP01.

5. Driver and safety readiness

- All assigned drivers hold a current commercial license, tracked in workbook X02.
- JP Ward, lead mechanic, will certify securement hardware after installation.
- Defensive driving and passenger-assist training scheduled before first revenue trip.
- Insurance rider to be added through Coral Gables before service begins, see P01.

6. Compliance checklist

Item	Status
Business license current	Complete
Vehicle modification quotes	Complete
Driver roster and licenses	Complete, X02
Insurance rider	Pending modification
AHCA application fee	Set aside in reserve
Final review with CPA	Scheduled with Max Delano

7. Submission timeline

The application is targeted for submission on January 25, 2027. A Q4 estimated tax payment is due January 15, 2027, and the CPA is preparing both in parallel. This draft will be finalized after the modifications pass inspection and the insurance rider is bound. Tracked on the project board and in deck PP01.

8. Service area

Initial service covers Miami-Dade County, anchored on the Allapattah yard and the existing Palmetto Health shuttle corridors. Routing draws on more than two decades of dispatch knowledge across the county, including the airport corridor and the major medical campuses.

Zone	Coverage	Primary vehicle
Central Miami-Dade	Full	VAN-04
Allapattah and adjacent	Full	VAN-03
Airport corridor	On request	Relief van
Outer county	Scheduled only	By assignment

9. Quality and passenger care

- Wheelchair securement inspected before every trip.
- Drivers trained in passenger assist and transfer safety.
- Vehicles cleaned and sanitized between medical runs.
- Trip records retained for AHCA compliance and billing.

10. Attestation

The applicant attests that the information in this draft is accurate to the best of her knowledge and will be confirmed against final modification invoices and the bound insurance rider before submission. Signed copy to be executed through DocuSign after a final read-through by Ashley Ward.

Ashley Ward, Owner, Ward Taxi & Car Service LLC

11. Driver training plan

Before the first revenue medical trip, assigned drivers complete passenger-assist and securement training. JP Ward certifies the securement hardware after installation. The plan below is tracked on the project board and reconciled with the roster in workbook X02.

Module	Lead	Status
Wheelchair securement	JP Ward	Scheduled
Passenger transfer safety	Outside trainer	Scheduled
Defensive driving refresh	Frank Morrison	Planned
Trip documentation	Ashley Ward	Planned

12. Record retention

Trip records, securement inspections, and driver certifications are retained for AHCA compliance and for billing. Records are stored in Google Drive and indexed against the invoicing tracker X07. The application package will be finalized once the modifications pass inspection and the insurance rider is bound through Coral Gables, see P01.
