I understand that recreational diving carries inherent risks, including but not limited to pressure related injury, marine life contact, equipment failure, and changing ocean conditions. I confirm that the information on my medical questionnaire is accurate and that I have disclosed any condition that could affect my safety in the water. I agree to follow the briefing, stay with my assigned buddy and guide, and end the dive if directed.

I release the dive operator and its staff from liability for injury or loss arising from my own failure to follow instructions or to disclose a relevant condition. I have read this release in full and sign it freely.
