
Merchant Mariner Credential and Vessel Documentation Record

This record summarizes the merchant mariner credential held by the operator of the F/V Bay Runner and the associated vessel documentation. Retain aboard the vessel and with your business records. The original credential and documentation certificate are the controlling documents.

1. Credential Holder

Mariner	John W. Singleton (Jack)
Credential	Master, 100 Gross Tons, Near Coastal
Reference	USCG Master 100GT No. 4418827
Endorsements	Master 100 GT, six-pack passenger for hire
Issued	2023-03-12
Expires	2028-03-12
Medical certificate	Current, valid through 2028

2. Credential Scope

The Master 100 Gross Tons Near Coastal credential authorizes command of inspected and uninspected vessels within the tonnage and route limits. For the Bay Runner this covers the six-passenger charter operation on the Chesapeake Bay. The credential must be renewed before expiration with continued professional experience or an approved refresher.

3. Renewal Requirements

- Submit renewal application no earlier than eight months before expiration.
- Maintain a current medical certificate.
- Document recent sea service or complete an approved refresher course.
- Complete a Transportation Worker Identification Credential check.
- Hold current first aid and CPR for the passenger endorsement.

4. Vessel Documentation

Item	Detail
Vessel name	F/V Bay Runner
Hull	42 ft fiberglass deadrise
Service	Commercial fishing and passenger charter
Documentation	USCG certificate of documentation on file
Home port	Annapolis, MD
Hailing port marking	Bay Runner, Annapolis MD

5. Required Carriage

The following documents must be carried aboard during commercial and charter operations. Missing documents can halt a charter and draw a citation during a boarding.

Document	Status	Renewal
Merchant mariner credential	Current	2028-03-12
Medical certificate	Current	2028
Vessel documentation	Current	Annual
DNR commercial license	Current	2026-12-31
Charter liability certificate	Current	2026-12-01

6. Operating Notes

Charter operations are limited to six passengers for hire consistent with the credential and the liability policy TMI-CHTR-55821. Crew safety briefings and the deck handbook are maintained in D02. Vessel condition is supported by the most recent survey, report MW-2025-0418.

This summary is a record convenience. The official credential and documentation certificate govern. Direct questions to the National Maritime Center.

Appendix. Renewal Timeline and Sea Service

Begin the renewal well before the 2028 expiration. Sea service from the commercial crab and charter seasons is documented through the catch and charter logs and supports the experience requirement.

Step	Window	Reference
Gather sea service days	Ongoing	Logs X01, X05
Renew medical certificate	2027	Primary care
TWIC renewal	2027	Federal
First aid and CPR refresh	2027	Local course
Submit application	By mid 2027	National Maritime Center

Carriage Reminder

- Credential and medical certificate aboard on every charter.
- DNR commercial license aboard April through November.
- Liability certificate available on charter days.
- Vessel documentation current and matching the hailing port marking.

Questions to the National Maritime Center. Keep this record with the vessel papers.
