

2027 Charter Season Plan

Working draft for Pete Andersen, project BRC-2027

Goals for 2027

- Fill the June to August slate to roughly \$48,000 net after the 15 percent broker cut.
- Add two fall rockfish windows in October after the peak season.
- Keep three to four charters per week without overloading the crew.
- Protect one weekend a month for family and lacrosse.

Capacity and Crew

- Tommy Novak runs deck on charter days, eleven years aboard.
- Patrick available as summer deckhand once school is out.
- D.J. Johnson and Mike Rawlings rotate on commercial days.
- Hold internal family trip on August 14, see workbook X05.

Pricing and Targets

- Half day \$675, full day \$1,150 for 2027, modest bump from 2025.
- Deposit 30 percent to hold the date.
- Mixed-bag and corporate trips priced at the full day rate.
- Rate card maintained in deck PP01.

Calendar Risks

- Avoid scheduling against DNR pot inspection prep before April 15.
- Heat and low oxygen can move fish in late July, keep mornings open.
- Back flare risk, use the puller and pace charter and commercial days.
- Confirm fall windows early with Pete.

Next Steps

- Pete to send referral list for June and July.
- Confirm deposits and update workbook X05.
- Lock fall rockfish dates by November.
- Review insurance certificate needs with Tidewater Marine.
