Assessment

Overall health status good. Lower back pain reported, intermittent, associated with prolonged standing at work. No neurological deficits noted.

Recommendations

1. Anti-fatigue standing mat for workplace.
2. Core strengthening exercises 3x weekly.
3. Consider chiropractic evaluation for lower back, referral available on request.
4. Increase sleep to 7 to 8 hours nightly.
5. Continue increasing protein intake, reduce processed carbohydrates.
6. Follow up in 12 months or sooner if back pain worsens.

Follow-up: January 2027
