Assessment

High blood pressure is well controlled on amlodipine 5 mg daily. Rheumatoid arthritis is managed by rheumatology and is stable. Overall the patient is doing well and stays active with regular walking.

Plan and recommendations

Continue current medications. Keep up the after-work walks and the anti-inflammatory diet. Routine labs were ordered through the rheumatology monitoring schedule. Stay current on dental care and bring the symptom log to the next specialist visit.

Next visit

Next annual physical scheduled for February 24, 2027.
