

Financial summary (STALE - do not trust the gap)

As of: 2026-10-01. These numbers are my own rough running total and are almost certainly wrong. Recompute from Stripe, QuickBooks Self-Employed, Xero, and Gusto payroll before quoting anything.

Headline guesses (unverified, treat as suspect)

Savings now (guess): \$2,100.00 at Puget Sound Community Credit Union.

Year-end target: \$3,000.00 emergency fund by Dec 31 2026.

Base-case balance (guess): \$3,048.34 <-- this has never felt right.

Gap to target (guess): about \$900 <-- probably wrong; verify.

Monthly net income (estimate): about \$1,510 total, lumpy month to month.

Where the income comes from (persona-real, not a guess)

Makerspace assistant: about 10 hours a week, Tue and Thu 2:00-5:00 PM PT plus alternating Saturdays 10:00 AM-2:00 PM PT, at \$16.50/hr, paid biweekly. Roughly \$610 net / \$720 gross per month.

Freelance UX/UI: 1 to 2 projects a month, averaging about \$900 with a \$600-\$1,200 range. Bookkept in QuickBooks Self-Employed.

Tuition is 40% merit scholarship; parents cover the rest. Parents also carry the family phone plan beyond my line and occasionally bridge rent in lean months. All parental top-up is tracked in a separate bucket to repay after graduation; it is NOT income and does NOT belong in savings.

Fixed monthly costs (from memory)

Rent \$875. Utilities \$65. Phone \$45. Figma Pro \$15. Spotify student \$6. Crunchyroll \$8. Domain and hosting \$12. iCloud \$3.

Variable monthly estimates

Groceries about \$180. Boba about \$60. Eating out about \$80. Art supplies about \$30. D&D snacks about \$15. ORCA student pass \$54. Misc about \$60.

Invoice ledger to reconcile (source of truth = Stripe deposit, not pipeline)

- INV-2026-004 Greenleaf Youth Arts / Zoe Park, \$250.00 Q1 retainer. Appears TWICE: manual 2026-01-30 entry AND Stripe deposit 2026-02-05. Flag as duplicate; keep the Stripe post as authoritative.
- INV-2026-009 Harborview Wellness Studio, \$800.00 booking-flow redesign. Paid 2026-02-28, reconciles in Xero.
- INV-2026-011 Greenleaf Youth Arts / Zoe Park, \$350.00 follow-on task. Paid 2026-05-10.
- INV-2026-014 Briarwood Tutoring Co-op / Dana Okafor, mobile-app onboarding redesign. HubSpot pipeline shows \$1,200; that number is STALE proposal-stage math. The Stripe invoice (via Gmail) is the authoritative figure. Trust the invoice, not the pipeline.

Where the truth lives

- Stripe (default rail for Briarwood, Greenleaf, Harborview payouts, threaded through Gmail).
- QuickBooks Self-Employed (1099 bookkeeping, categorizes deposits).
- Xero (Harborview reconciles here).
- Gusto (Makerspace payroll + paystubs).
- Plaid links PSCCU into my budget Google Sheet.
- PSCCU itself is phone and web only, not a live API. Venmo and Cash App are phone only.

What I actually want back

Project confirmed income against estimated expenses through Dec 31 2026 (finals Dec 7-11, semester ends

Dec 11). Report the corrected base-case balance and the true gap to the \$3,000 emergency-fund target, name which source you trusted for each disagreement, and log the calls in a short disagreement log.

Red lines

- Do not share my rates, income, savings balance, or the parental top-up outside this thread.
- Draft-only for any outbound to Ravi, Dana Okafor, Zoe Park, or anyone else. Confirm before send.
- Any commitment above \$100 (print run, tools, subscription) waits for approval.
- These figures never leave this machine.
